

ASK ANY RIDER OF A WORLD BICYCLE IF HE EVER HAS ANY TROUBLE WITH HIS WHEEL?

We sell the World at \$35; it is sold in other cities for \$5 to \$15 more. It is strictly high grade, and as good as any bicycle on the market. It is NOT IN THE TRUST. We have never had but one defective part on any World bicycle, and that was replaced promptly without cost to the owner. The World is made by Arnold, Schwinn & Co. now the oldest factory in Chicago. They also make the Admiral, our \$25 wheel, which we have handled here since 1897.

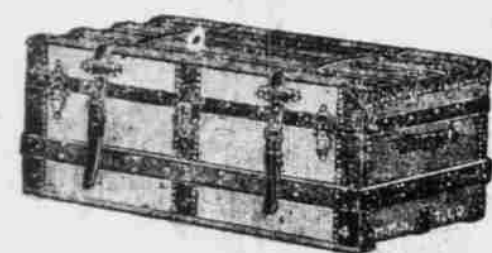

If you are interested in bicycles call and see us. We do repairing.

OF LOCAL INTEREST

A BOY BABE—A boy babe was born yesterday to Mr. and Mrs. Charles F. Smallwood.

SOLD LOS ANGELES PROPERTY—Of a former resident of this city the Los Angeles Times says: Mrs. Cora E. Freeze has sold to Jose Dominguez of Sonora, Mex., 40x125 feet, on the southwest corner of Hill and Eleventh streets, with four frame dwellings, consideration named \$22,500.

GOT A BREATHING SPELL—There was a very good attendance at the Eastlake park theater last night, the bill being "A Lawyer's Wedding," the same one presented the night before for the benefit of the summer widowers. When the storm came up and the power house went to the bad, the player got a breathing spell for a while till the lights started again.

A MISSING UNDER SHERIFF—James Suis, under sheriff for Sheriff Joe Roberts of Yavapai county, has been missing since Sunday afternoon, and his whereabouts are unknown. He left without informing the sheriff or any officials in the office and without bidding goodbye to his wife and family. He was seen at Ashfork on the Santa Fe main line Sunday evening, and is supposed to have gone to California. Sheriff Roberts has an expert examining his books.

ATLANTICS AT BISBEE—The Bisbee Review says that Tuesday night a terrible accident occurred at the Pittsburg and Hecla shaft. J. H. Goodwin of Virginia, Minn., and a Mexican were plunged to death by the tipping of a bucket in which they were riding in the shaft. They fell into the sump, which had many feet of water in it, and were both instantly killed. The heads of both men were crushed, probably from striking timbers. Mr. Goodwin recently arrived in Bisbee with his partner having a contract to sink diamond drill holes at the Pittsburg and Hecla.

PROGRESS OF THE P. & E.—Mr. W. A. Drake of the Phoenix & Eastern came in yesterday afternoon from the front. The construction work, he says, is going on in a very satisfactory manner. As had been mentioned by the Republican, the tunnel near Kelvin has been completed. All the heavy work in that vicinity has been finished. There will be very little heavy work between that point and Benson and there will be none at all for forty miles beyond Kelvin. The end of the track is now a mile beyond Kelvin and the end of the grade is eight miles beyond. There is, though, a grading camp within four and a half miles of Dudleyville. The work will now probably be pushed rapidly. Benson, the objective, is eighty-five miles beyond Dudleyville.

NEW C. & A. MACHINERY—The Bisbee Review has the following saying respecting the new machinery ordered for the Calumet & Arizona mine: Superintendent S. T. Nelson of the Sullivan machinery house of Chicago was yesterday awarded the contract by the C. & A. for an air compressor of sufficient capacity to handle 50 air drills. He was also given an order for a hoist with cylinders 18x42. Mr. Hunter representing the Nordberg people, was given an order for a compound tandem belt and engine for the C. & A. smelter at Douglas. The hoist ordered of the Sullivan people makes five hoists that the C. & A. have ordered that are not yet on the ground. This activity in putting in a large air compressor also many hoisting engines foreshadows a greater production of the C. & A. properties, and promises a greater prospect for Babine.

NEW YORK STORE WON—The baseball game at Eastlake park yesterday afternoon, between the New York store team and the Glendale team, resulted in a victory for the former, the score being 18 to 16. The New York store won a certain amount of glory by winning the game, still to a man who didn't see the game and knows the record of the New York store team, it carried the impression that the New Yorkers were playing with their opponents like a cat plays with a mouse. It would seem as though a team that could play the games that that aggregation has previously put up ought to be able to have shut out the visitors entirely but probably it was desirable to entertain the grand stand by letting them witness themselves running bases then out run them at their own game. But the New Yorkers in their brand new blue and white uniforms looked real sweet and becoming. It looks as though the Glendale lads spent the time making love to them instead of playing ball.

ERRATIC STOCK DEALINGS—M. A. Burk was arrested on July 21 by G. O. Scott, an inspector of the live stock industry board, who had been with engaging in the live stock business in the Tonto country in a way that is designed to play havoc with the titles to personal property thereabout. A Payson correspondent of the Republican reports that Burk appeared in the Tonto country a week or two ago, coming from the Salt River valley, but representing himself to be from Taylor, Ariz. He had four head of horses with him and after a few days' rest he took the trail for Pleasant Valley, but branched off and at the mouth of Rye stole a valuable jack belonging to William Brodie of Rye. He then made another start for Pleasant valley but lost the trail and landed at Glendale. There he traded the jack to Dave Booth for two other jacks and also traded horses with George Booth. By this time he was overtaken by Inspector Scott who had been on his trail and who arrested him and took him to Payson. He was arraigned there and his trial set for the 23d, but he wanted to secure an attorney, so his case was continued to the 24th.

WAIVED EXTRADITION—Sheriff Ralph of San Bernardino, Cal., will not come to Phoenix to have his requisition for the return of Clatio Agulla, the murderer, honored. He has already returned with his man. Agulla was at Naco having been captured at Gila Bend by Lieutenant Brooks of the Arizona rangers. It turned out that the sheriff did not need requisition papers. Agulla either waived extradition or else he did not understand his rights. The story of the return of the prisoner to San Bernar-

dino is told by the Los Angeles Times: "Sheriff Ralph arrived tonight from Naco, Ariz., having in custody Clatio Agulla, charged with the murder of Pedro Chavez at Colton two Sundays ago. For two days an immense mob of Mexicans and whites have hung about the Southern Pacific depot awaiting the arrival of the prisoner, many threats of lynching being made. In anticipation of trouble a large force of deputies surrounded Agulla as he stepped from the train, handcuffed and in leg irons, but though between four hundred and five hundred persons were present, no demonstration followed. To a Times reporter tonight, Agulla stated that after shooting Chavez he circled about the low mountains and did not catch a train until after passing El Casco. Four days he went without food, finally devouring leaves and roots. His capture ended a ten-mile race with Arizona rangers."

BAPTIST SERVICES—The usual services of the Baptist church will be held tomorrow, morning and evening.

A PIE AFFAIR—There was a curious and expensive case or rather two of them in the court of Justice Burnett yesterday. The complainant was a man by the name of H. Moreno, a manufacturer of pies which are retailed about town by a youthful vendor of the name of Jose Castro. A few days ago the boy was selling pies when he approached a crowd of boys and young men more or less under the influence of liquor, or the boy thought they were. They grabbed pies from the portable pie table and began a deadly assault upon one another with them. When they had concluded the battle they paid the boy a sum of money and he went on selling pies. He reported the pie engagement to Moreno who made complaint and presented an exhibit consisting of a lot of broken pies. There was also a complaint against one of the young men by the name of Jerez charging him with an assault upon the boy. The case arose in the court of Justice Burnett and was taken before Justice Burnett on a change of venue. The case of Jerez was taken up first. The boy said that nobody assaulted him and the matter was dismissed. Then the pie case proper was taken up. It was also dismissed on the story mainly of Moreno himself. He said that there was pies on the table to the amount of \$2.50. At the prevailing price the world would have been enough of them to load down a mule and yet the boy, according to the testimony, had been carrying the table around. The young men admitted throwing pies but they said after it was over they paid the boy for all the pies they destroyed and gave him a quarter besides.

POSTPONED.

The postponed meeting of the Taxpayers' Union of Maricopa county will not take place until the return of Mr. P. K. Hickey, their expert, from Globe where he is doing a similar work for Gila county. When he returns to Phoenix a meeting of the Taxpayers of Maricopa county will be held at O'Neill hall, where Mr. Hickey will explain the auditing of the various public offices both in city and county. Due notice of the same will be given through the press of this city.

A MEXICAN MINE

The Development of the Cieneguita Property.

T. C. Archer of Prescott, a mining engineer, arrived in the city from Mexico yesterday morning. He has been in the Cieneguita mines for the last two months and will return in a few days. That is the property in which several Arizonians were interested, among them being Dr. Ford, Judge Barnes and the Christys. Dr. Ford and Judge Barnes disposed of their stock to George Bebee and his associates, who are now the principal owners. Mr. Archer says that in the four properties embraced by the Cieneguita there is a bigger body of rich ore than he had ever seen. The value of much of it in copper and silver is from \$300 to \$600 a ton. Ledges on all the properties are of immense width and they seem to be running together. When they have been found to be joined there will be disclosed such a deposit of highly mineralized ore as has seldom been seen.

Only about fifty men are employed there now. All the work has been development work, but there has been enough of that kind of work to show the need of a 500 ton plant, which will be shortly installed. Work is going on on the machinery as rapidly as possible. A part of the business of Mr. Archer in this country now is to look after properties of his own, adjoining the Val Verde, and a part of it is to buy electrical machinery and a mile tramway for the Cieneguita.

HE SAW THE COAST

Return of Deputy Sheriff Duncan From His Vacation.

Deputy Sheriff Jeff Duncan returned yesterday morning from a month's vacation to the coast. He spent the greater part of his time in San Francisco, and he says if he had known what kind of a town it was he would have been there all the time. He found a greater variety of wickedness in the vicinity of the Golden Gate than he had supposed existed anywhere in the world. He was accompanied on the tour by John E. Burke, whom the boys better know by the name of "Dinky," and Frank Tucker, late bartender at the Capitol. They visited most of the beaches in the southern part of the state and took a boat for San Francisco. It was on this trip that it was

disclosed that Mr. Burke was not a true sport. But for Mr. Burke and others like him the fish and other inhabitants of the deep in those waters would have had a hard time getting along in the world but they lived luxuriously in the wake of the steamer in which Mr. Burke traveled. Mr. Burke kindly helped feed them.

There was very little about San Francisco that this trio did not see. They were armed with letters to all the authorities, who admitted them to everything within their jurisdiction. They were even provided with a guide through China town. Mr. Duncan yet blushes when he thinks of some of the things he was compelled to look at on that trip.

Mr. Tucker left the party there for an extended tour of the east. He went by the Canadian Pacific to Toronto. From there he will visit most of the large cities in the east, and the world's fair, returning to Phoenix some time in the fall.

Mr. Burke stopped at Los Angeles on his way back, where he will remain to recover from the effect of his sea voyage.

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
